Customised screen

### Superior Needle Threader

Threading could not be easier. Set your thread, push down the lever and release. The superior needle threader's advanced design feeds the thread through the eye of the needle with precise accuracy every time.

### One-step Needle Plate Conversion

**Industry first** – This is the first domestic flatbed sewing machine that is equipped with one-step needle plate conversion. Simply push the button to release the plate and snap another one in place. This model has 3 needle plates – standard, straight with left, middle and right needles holes plus the HP high performance.

### 1,200 Stitches Per Minute

**Industry first** – The fastest sewing machine with a maximum sewing speed of 1,200 stitches per minute. The wide extension table comes standard with this model giving the sewist a huge flatbed work area.

### AcuFeed Flex™

Janome's AcuFeed Flex Layered Fabric Feeding System is renowned for its amazing precision and power. AcuFeed Flex effortlessly guides your fabric from the top and the bottom. Perfect for quilts, matching striped or chequered fabric and any sewing requiring precise control.
