Easy Set Bobbin

Simply drop the bobbin into the bobbin holder. Check the bobbin turns anti-clockwise when you pull the thread. Guide thread through flat tension spring then around the white channel on the left. Thread trimmed at end of channel. You're ready to sew without the need to pull up your bobbin thread.

Ergonomic Knee Lift

The ergonomic knee lift allows you to control the presser foot with your knee. Very helpful when sewing a project that needs to be frequently manoeuvred or requires you to keep hands on the fabric at all times. Available in an adjustable design, which can be manipulated to rest in the most comfortable position for each sewist.

Workspace

The largest workspace in its class! W 210mm (8¼”) x L 330mm (13”) of spacious bed space. With 210mm (8¼”) to the right of the needle there's room for any project.

Six Ultra-Bright LED Lights

Ultra-bright LED lights in three locations illuminate the bed of the machine, providing a dazzling work area.
