Standard foot control	✓
Software: PC applications (Download for Windows only)	✓ Quilt Block Advisor Stitch Composer Screen Saver Tool
Extra wide table with drawer	✗ (Additional purchase)
Machine weight	17.3Kg

**AVAILABLE FROM YOUR EXPERT JANOME RETAILER**

## SUPERIOR NEEDLE THREADER V2

Threading is a breeze! Just load your thread, push the lever down on the left end of the machine, release slowly, then start sewing! This handy function gets you sewing quickly. Its smart design reliably guides the thread through the needle's eye with pinpoint accuracy every time.

## WE'VE GOT *the power*

Engineered with Janome's DC brushless motor, the CM6 provides you with powerful penetration and needle force, allowing you to easily tackle heavyweight home dec fabrics like canvas in order to make your decorating dreams come to fruition.

## AVOIDING EMPTY *bobbin inconveniences*

For everyone who has sewn a long seam, only to find that your bobbin thread ran out after the first few inches, our advanced Optical Bobbin Monitoring System is for you. Janome's latest technology allows the CM6 to constantly monitor your bobbin thread supply while sewing, so that you will receive a warning as soon as the bobbin thread gets low, not when it's too late and the bobbin is empty.
