### Note:

- **This chart is for your reference only, please measure your machine to ensure proper fit**
- This size chart refers to fitting your machine (without the hard case) through the front opening, not necessarily through the top
- Tutto Small and Medium cases can be carried on the airplane
- The large, 1X-Large, and 2X-Large Machine On Wheels with the extra wide opening is easier to load - ideal for people who travel by car or attend classes

### Airplane Use

Small & Medium bags fit under most airplane seat or in overhead bins. Double use as a carry on suitcase.

### Features / Benefits:

- **4 wheel system** : Distributes weight of bag evenly over 4 wheels, lessens strain on pulling arm.
- **Sturdy structure**: Fiber glass frame protects content & can hold 100lbs on top.
- **Top & side opening** : Load your machine either from top or side for easy access.
- **Inside & outside straps** : Secure & stabilize your machine inside. Straps another bag on top.
- **Versatile pockets** : Keep fabric, tools & accessories organized.
- **Outside frame** : Better traction and greater packing capacity and easier to maneuver.
- **Folds to 3"** : Collapse for compact storage.

# Serger On Wheels™

## Size:

## Operating your bag:

Make sure the strap is out of the way before loading machine.

Most machines can be loaded from top of the large size Serger On Wheels.

For easier loading, place machine through front opening.

Adjust to buckle the straps, then pull the straps down tightly.
